18					
19	Plaintiff Apple Inc. ("Apple") for its Complaint against Open Network Solutions, Inc.				
20	("ONS" or "Defendant") hereby demands a jury trial and alleges as follows:				
21	NATURE OF THE ACTION				
22	1. This is an action for declaratory judget	gment of non-infringement and invalidity of			
23	United States Patent Nos. 6,745,259 (the "'259 Patent") and 6,907,476 (the "'476 Patent")				
24	(collectively, the "Patents-In-Suit") pursuant to the Declaratory Judgment Act, 28 U.S.C.				
25	§§ 2201–02, and the patent laws of the United States, 35 U.S.C. § 100 et seq., and for such other				
26	relief as the Court deems just and proper.				
27	PARTIES				
28	2. Plaintiff Apple is a corporation orga	nized and existing under the laws of California,			

with its principal place of business at 1 Infinite Loop, Cupertino, California 95014.

- 3. On information and belief, defendant ONS is a wholly-owned subsidiary of Wi-LAN, with a place of business at 2711 Centerville Road, Suite 400, Wilmington, DE 19808.
 - 4. As alleged herein, ONS has engaged in various acts in and directed to California.

JURISDICTION AND VENUE

- 5. This Court has exclusive subject matter jurisdiction pursuant to 28 U.S.C. §§ 1331, 1338(a), 1367, 2201, and 2202, and the patent laws of the United States, 35 U.S.C. § 1, et seq. Venue is proper in this judicial district pursuant to 28 U.S.C. §§ 1391 and 1400.
- 6. ONS purports to be the owner of all rights, title, and interest in and to the Patents-In-Suit. ONS has made statements alleging that Apple infringes the Patents-In-Suit and demanding that Apple license the Patents-In-Suit. Furthermore, ONS has demonstrated its ability and willingness to file suit through its initiation of multiple lawsuits against companies similarly situated to Apple. Apple has not infringed and does not infringe, either directly or indirectly, any valid and enforceable claim of any of the Patents-In-Suit, either literally or under the doctrine of equivalents, nor is Apple aware of any infringement of any of the Patents-In-Suit. A substantial controversy exists between the parties which is of sufficient immediacy and reality to warrant declaratory relief.
- 7. This Court has personal jurisdiction over ONS. ONS has conducted business in and directed to California, including pertaining to the Patents-In-Suit, and has engaged in various acts in and directed to California. ONS is in the business of asserting patent infringement claims and suing companies for patent infringement. In connection with that business, ONS has targeted and corresponded with companies in Santa Clara County, including Apple.

BACKGROUND OF PARTIES

8. Apple is an American multinational corporation and leading designer and manufacturer of mobile communication devices, personal computers, and portable digital media players. As a result of its significant investment in research and development, Apple has developed innovative technologies that have changed the face of the computer and telecommunications industries. For example, when Apple introduced the first iPhone in 2007, it

revolutionized the way people view mobile phones.

3 4

- 9. Apple introduced another revolutionary product, the iPad, in 2010. The iPad is an elegantly designed computer tablet with a color touch screen, a user interface similar to the iPhone's user interface, and robust functionality that includes mobile computing, media storage and playback, and cellular connectivity. Because of its innovative technology and distinctive design, the iPad achieved instant success.
- 10. ONS is a wholly-owned subsidiary of Wi-LAN Inc., and solely in the business of acquiring and asserting patents. ONS's business model revolves around threatening to initiate litigation against technology companies to extract licensing fees. If a company fails to take a license, ONS initiates litigation. ONS has initiated litigation against over fifteen technologies companies in the past several weeks asserting the Patents-In-Suit.
- 11. On or around June 13, 2014, ONS sent an email to Apple putting Apple on notice of infringement of the Patents-In-Suit, alleging infringement by Apple products such as the iPhone and iPad (the "ONS Notice Letter").
- 12. Given the contents of the ONS Notice Letter and ONS's recent litigation history related to the Patents-In-Suit, there is an actual case or controversy regarding whether Apple infringes the Patents-In-Suit and whether the Patents-In-Suit are valid.

THE PATENTS-IN-SUIT

- 13. The '259 Patent is entitled "Open Network System for I/O Operation Including a Common Gateway Interface and an Extended Open Network Protocol with Non-Standard I/O Devices Utilizing Device and Identifier for Operation to be Performed with Device" and bears an issuance date of June 1, 2004. A copy of the '259 Patent is attached hereto as Exhibit 1.
- 14. The '476 Patent is entitled "Open Network System and Method for I/O Operations with Non-Standard I/O Devices Using an Extended Open Network Protocol" and bears an issuance date of June 14, 2005. A copy of the '476 Patent is attached hereto as Exhibit 2.
